THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (SHRIMATI PANABAKA LAKSHMI): (a) to (d) As per the information obtained from Medical Council of India, the Council has no information on the number of Indian students who obtained medical degrees from colleges in erstwhile U.S.S.R.

Various references were received from different sources including Medical Council of India on the deterioration in the standard of medical education in several institutions abroad including U.S.S.R. The Govt. therefore, amended the provisions of Indian Medical Council Act, 1956 through the Indian Medical Council (Amendment) Act, 2001. Under this Amendment the MCI notified two notifications namely 'The Screening Test Regulation, 2002' and 'The Eligibility Requirement for taking admission, in an undergraduate medical course in a Foreign Medical Institution Regulations, 2002'. As per 'The Screening Test Regulation, 2002', any Indian citizen possessing a primary medical qualification awarded by any medical institution outside India, who is desirous of getting provisional or permanent registration with Medical Council of India or any State Medical Council on or after 15th March 2002, shall have to qualify in the Screening Test conducted by the prescribed authority for that purpose. The primary medical qualification possessed by the Indian students must be a recognized medical qualification for enrollment as medical practitioner in the country in which the institution awarding the said qualification is situated and which is equivalent to MBBS in India. 'The Eligibility Requirement for taking admission in an undergraduate medical course in a Foreign Medical Institution Regulations, 2002' prescribes that a person who is a citizen of India shall not on or after 15.3.2002 be eligible to get admission to obtain medical qualification in a medical institution in any foreign country without obtaining an eligibility certificate from Medical Council of India and in case such person obtains such qualification without obtaining such eligibility certificates, he shall not be eligible to appear in the above said Screening Test.

Leprosy eradication in India

1134. SHRI K. RAMA MOHANA RAO: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) whether it is a fact that there are a large number of leprosy cases in Andhra Pradesh alone;

(b) if so, the number of leprosy patients/affected people in the country, State-wise;

(c) the number of leprosy cases reported in the country during the last five years, State-wise and year-wise; and

(d) the details of units started under National Leprosy Eradication Programme in Andhra Pradesh?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (SHRIMATI PANABAKA LAKSHMI): (a) No, Sir. The prevalence rate in Andhra Pradesh has declined from 11.72 in 1981 to 0.61 per 10,000 population in September, 2005.

(b) The details of existing leprosy patients in the country, State-wise are given in the enclosed Statement-I (*See* below).

(c) The number of leprosy cases detected in the country during the last five years, State-wise and year-wise are given in the enclosed statement-II (*See* below)

(d) National Leprosy Eradication Programme has been integrated with General Health Care Services since 2001-02. Diagnosis and treatment of leprosy cases in being provided by all Primary Health Centres (PHCs).

Statement-I
